## COSTS

### WiFi Costs:

3Mb for a single user per day = \$10	50 or more = \$5
5Mb for a single user per day = \$15	50 or more = \$8
10Mb for a single user per day = \$25	50 or more = \$15

### Hard Line Costs:

Any cable drop per event = \$250 Maintenance charge

One DHCP (local network) IP cost the same as WiFi above per day

One Public IP per event = \$250 (Any vendor or promoter using a router must use a Public IP)

One Public IP @\$250 + \$250 for drop, includes 10Mb/day bandwidth: **Total** = \$500 /event

One Public IP @\$250 + \$250 for drop @ 20Mb, add \$40/day: **Total** = \$500 + \$40/day

One Public IP @\$250 + \$250 for drop @ 40Mb, add \$80/day: **Total** = \$500 + \$80/day
